Capabilities Statement for **USDA**

USDA plays a critical role ensuring the economic vitality and security of our nation’s food systems. In today’s environment, the need for efficiencies and the ability to drive value with fewer resources is part of every initiative. USDA needs services that deliver on promises and empowers success. Technology tools must be used smartly to accomplish objectives, leverage previous investments and craft creative solutions.

Northcross Group (NCG) has highly skilled and experienced resources with a proven track record in both the public and private sector delivering insight and tangible value. Our team has USDA specific experience from industry, as well as supporting the Department directly; couple with other Defense and Civilian experience.

Oversight & Governance:

- ✓ Food Safety compliance experience
- ✓ Data collection and processing—i.e. RFID tracking of livestock birth to slaughter and cross border
- ✓ System safety programs, assessments, and audits

Data Analytics & Process Engineering:

- ✓ Life cycle data process support tailored to improve efficiently and situational awareness
- ✓ Automate manual processes securely and effectively to reduce resource requirements

NCG’s Commitment to Customer service:

- ✓ Commitment to quality in every engagement
- ✓ Experienced and cleared staff (up to TS SCI active clearances)
- ✓ Continuous improvement processes
- ✓ Staff with Government and Private sector experience to bring the best of both worlds to every engagement
