FOR IMMEDIATE RELEASE:

NCG Presents at DrupalCon Los Angeles 2015

Portland, Maine, March 25 - Northcross Group (NCG) is pleased to announce its continued support of the Drupal Community by conducting a one day training session at DrupalCon 2015 at the Los Angeles Convention Center on May 11. The session led by NCG's Development Director Chris Porter is entitled "Views From the Ground Up". This session originally ran at DrupalCon 2014 in Amsterdam, and received very positive participant feedback and demand. The greater DrupalCon LA conference features a full schedule of educational, networking, and contribution opportunities.

The "Views From the Ground Up" training session is designed to help participants be able to take almost any display currently being used in Drupal, and override it, making it fit better with their particular admin style and needs. Users with a basic understanding of Drupal who want to build or customize displays or layouts, or simply build their own administrative areas will benefit from this course the most.

Three times a year, the Drupal community gathers in North America, Europe, and a third geographic region for a full week dedicated to sharing and growing Drupal skills.

NCG uses Drupal in its solutions as part of NCG's commitment to openness and standardization for development and driving innovation and competitive advantage in how those common and interoperable tools are put to use.

To register for the "Views From the Ground Up" training session, as well as general DrupalCon 2015 conference information, please visit <https://events.drupal.org/losangeles2015/registration>.
