**FOR IMMEDIATE RELEASE:**

**Northcross Group Provides Pro Bono Security Assessment for the Center for Grieving Children**

**Portland, Maine, February 5, 2016:** Northcross Group (NCG) continues its long-standing support of the Portland community and the Center for Grieving Children by providing pro bono cybersecurity risk assessment services.

“NCG provides cybersecurity program and assessment services to both the private and public sectors. We are pleased to provide these services to an organization that does some really great work in the community,” said NCG President Chris Bender.

NCG conducted a cybersecurity risk assessment for the Center that provided guidance and industry best practices on how best to safeguard the Center’s information and technology resources. The Center for Grieving Children provides its services to the community at no cost and receives no government grants or programming, relying totally on community support. Since 1988, the Center for Grieving Children has provided loving support to grieving children, teens, families, and communities through peer support, outreach, and education.

The Center currently has over 200 volunteers serving its Bereavement, Multicultural, Young Widow and Widowers Groups, and Community Outreach programs. The Center provides services to over 4,000 children, teens, young adults, and their families through their service sites in Portland and Sanford.
